Smart cleaning.

A Nilfisk-Advance Brand

AWD-320 & AWD-315

Wet/Dry Tank Vacuums

Ideal applications include:

- **Education**
- **Government**
- **Hospitality**
- **Building Service Contractors**
- **Malls and Retail**
- **Healthcare**

Exceptional Performance Versatile Filtration.

The Advance AWD series of commercial wet dry vacuums incorporate the technical excellence and attention to detail that have made Advance the brand of choice among cleaning professionals.

Advance AWD vacuums come in two sizes, 20 gallons and 15 gallons with identical foot prints. The blow molded tanks have a rear mounted drain hose that makes emptying the contents simple and clean. A 10 foot hose connects to the vacuum and utilizes our field proven locking vacuum interface. The adjustable handle easily accommodates users of different heights and can be folded down over the top of the machine for easy transport.

A 50 foot safety yellow power cord provides the power to the 1,300 watt 2-stage motor. The water resistant switch is covered with a rubber boot and is rated for 20,000 on/off cycles.

Versatile dry filtration options are abundant on the AWD vacuums. Up to four levels of pre-fan filtration can be added to the machine. A basket filter comes standard and can be used along with the optional dust bag, and H.E.P.A. filter.

Liquid recovery is accomplished with either the two piece light weight aluminum wand and 14 inch squeegee tool or with the optional front mount squeegee assembly. The 24 or 30 inch front mount squeegee is the high productivity solution to recovering large amounts of liquids during emergencies or when stripping and refinishing floors.

Adjustable handle folds over the machine for easy transport.

50 foot cord and 10 foot hose for long cleaning reach.

Convenient cord storage over motor top handle.

Gray non-marking wheels.

Rear drain hose makes emptying a breeze.

14 inch hard floor and squeegee tools.

Dry filter basket standard for economical collection of dry material

Adjustable handle provides comfortable use

Rugged 20 and 15 gallon blow molded tank

Two piece aluminum wand is light yet strong

Compact footprint takes up minimal room in tight spaces

14 inch floor tools for higher productivity
