

Product Data Sheet

BR/BD 55/60 W

Medium-area Walk-behind Scrubber Driers with interchangeable head technology.

The BR and BD 55/60 W offer a high level of versatility to the medium sized walk-behind scrubber drier market. Featuring Kärcher's innovative interchangeable brush head system, the machines offer the end user the opportunity to purchase one machine and two heads, ensuring the right cleaning head for the job without the need to buy a new machine. The machines feature a 55cm roller head (BR 55/60 W) or a 55cm disc head (BD 55/60 W) as standard, with the option of purchasing 55cm or 65cm wide roller or disc heads as retrofit parts. Head replacement only takes a couple of minutes and does not require tools. A range of brushes and pads are available for each head and can be changed quickly without the need for tools.

New Anthracite Colour

- Easy to keep clean
- Less conspicuous in public areas
- Easy to locate controls and service elements

Features and Benefits:

- DOSE system for exact metering of detergents and rapid change of detergent type without the need for tank cleaning, saving time and cost.
- FACT variable brush rotation speed (roller head models only) optimising brush speed for different floor types and reducing noise in sensitive environments.
- Simple controls including paddle drive lever and LCD display with single navigation button for easy operator training.
- Fresh water filter to reduce maintenance and ensure perfect performance.
- Drain tap for simple and safe waste water disposal and tank cleaning.
- Innovative water and detergent distribution rail to ensure constant output and easy maintenance.
- Pre-sweep device on roller heads means coarse dirt does not need to be removed before scrubbing.
