

Whirlamatic™ 17 & 20 UHS

Burnishers

Advance
by Nilfisk-Advance

FACT SHEET

TYPICAL APPLICATIONS INCLUDE

- Schools and Universities
- Healthcare Facilities
- Supermarkets
- Retail Outlets
- Institutions
- Contract Cleaners

OPTIONAL ACCESSORIES INCLUDE

- Burnishing Brushes
- Pads

For superior performance, durability and simple operation, depend on the Whirlamatic™ 17 or 20 UHS. These 17 and 20 inch (43 & 51 cm) cord-electric burnishers give floors a mirror-like shine in one pass. Incorporated into both are performance features that ensure maximum productivity. An exclusive Constant-Flo™ design uses a patented torsion spring design to eliminate any operational variances and the need for caster wheels, making burnishing almost foolproof. Neither uneven floors nor operator inexperience can affect the brush/pad pressure. Weight is evenly maintained while brush/pad turns at 1500 rpm's. The result is a consistent luster across the floor.

Simplicity in design reduces downtime. Direct drive to the brush and pad holder eliminates the need for belts and pulleys. With the convenience of cord-electric operation, the 17 or 20 UHS is ready when you are. Their size and low profile make them maneuverable in obstructed areas. The 20 UHS burnishes at a rate of 10,000 sq ft (925 m²) an hour; 9,100 sq ft (840 m²) for the 17 UHS.

Operation is simple and safe because they move along without side-to-side torque. Large, non-marking wheels make them easy to transport.

Advance Whirlamatic™ 17 & 20 UHS

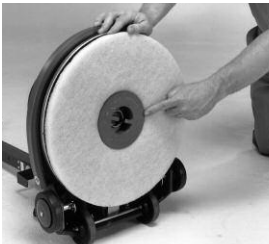

Burnishers

Non-tiring twist-grip start stops automatically when the operator lets go. Safety interlock button prevents accidental start.

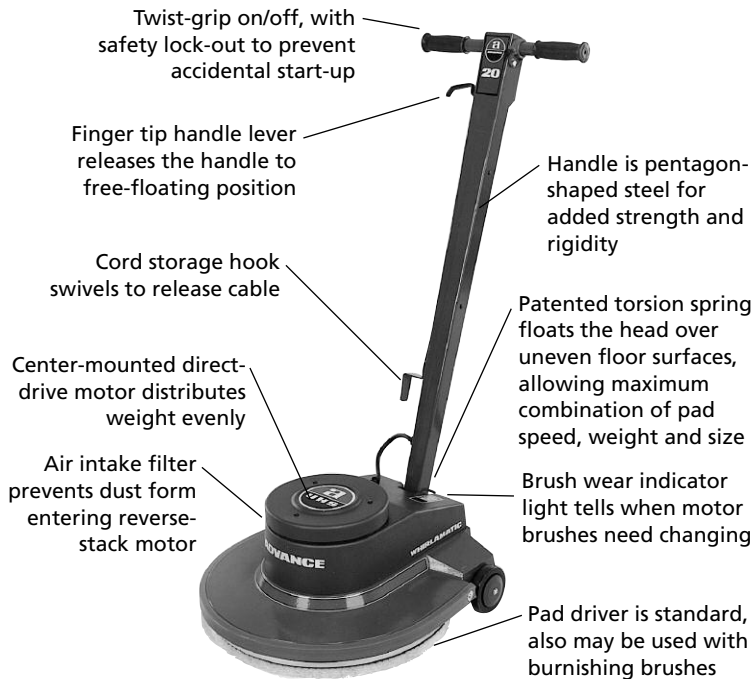

Both models tip back to rest on a second set of big four-inch (10 cm) wheels for easy transportation.

Permanent brush/pad holder mounted directly to motor. Eliminates transmission problems. Pad attaches easily to center mounting hub.

Low profile housing lets the machine under obstructions. Non-marking rubber bumper provides protects machine.

Comes in 17 in or 20 in (43 or 51 cm) pad sizes

Defining Cleaning Innovation...

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your products by factory-trained personnel around the world, as well as fast parts delivery.
- Maintain peak performance with genuine APA parts.

Technical Specifications
